BeeSmart Monetization & Avatar Tier Plan (v4)

Overview

This plan builds directly on BeeSmart's current avatar system, respecting the existing API structure and universal loader. Players can now select from a small set of open avatars during registration, unlock new bees by earning Honey Points through gameplay, or purchase premium avatars for instant access. This approach aligns fully with your existing app design and infrastructure.

1 Registration & Guest Flow

User Type	Starting Avatar Options	Notes
Guest / Unregistered	Mascot Bee	Default static mascot; no progression or point tracking.
Registered (Free)	Cool Bee, Brother Bee, Builder Bee, Detective Bee, Explorer Bee	Open avatars available during registration in avatar picker. Starts earning Honey Points immediately.
Premium / Purchaser	All purchased avatars	Unlocked avatars accessible at registration or anytime after purchase.

2 Earn-Or-Buy Tier (Standard Unlocks)

Avatar	Category	Unlock Requirement
Doctor Bee	Profession	2,000 Honey Points or \$0.99
Knight Bee	Fantasy	4,000 Honey Points or \$0.99
Monster Bee	Fantasy	6,000 Honey Points or \$0.99

Vamp Bee	Fantasy	24,000 Honey Points or \$2.99
Ware Bee	Fantasy	27,000 Honey Points or \$2.99
Zom Bee	Fantasy	25,000 Honey Points or \$2.99

4 All-Access Options

Bundle Type	Description	Price
Top Bee Bundle	Unlocks all Top Avatars instantly	\$9.99
Ultimate Hive Bundle	Unlocks every avatar in the app	\$14.99

5 Technical Implementation (Aligned with Current API)

- Update avatar_catalog.py with flags: is_default_free, is_purchasable, unlock_points, and price.
- Registration: add 'Open Avatar' filter to avatar_picker.html.
- /api/users/me/avatar: validate avatar ownership before allowing update.
- No new DB fields required.
- Future: expand Honey Point tracking and unlock validation server-side.

Summary

Players start with five open avatars during registration, unlock others by earning Honey Points, or buy top-tier bees directly. This structure keeps gameplay educational, rewarding, and store-compliant.
